

Spectacle Case Bias

What you will need to get started: Scissors, needle, pins, heavy-duty thread, 6" x 7" cotton lining, steam iron, ironing board, 3/4" x 6" & 3/4" x 10" wool bias trim.

STEP 1: Steam iron finished punchneedle.

STEP 2: Trim 1/2" all the way around the punchneedle.

STEP 3: Lay the lining fabric wrong sides together with the punchneedle. Trim lining fabric to match punchneedle fabric.

STEP 4: Pin the edges of the lining and punchneedle together, all the way around.

STEP 5: Butt one edge of the 3/4" x 6" wool bias trim next to the top edge of the punchneedle case. Sew a running stitch all the way across.

STEP 6: Turn project over and trim the weavers cloth and lining back to 1/4".

STEP 7: Fold the wool bias over the top. Pin in place and stitch the bias along the backside.

STEP 8: Fold punchneedle case in half. Repin edges together.

STEP 9: Butt one edge of the 3/4" x 10" wool bias trim next to the bottom edge of the punchneedle case, overlapping 1/2". Sew a running stitch all the way along the edge.

STEP 10: Remove pins. Trim excess punchneedle and lining down to 1/4".

STEP 11: Fold bias over the cloth, butting up to the other side of the punchneedle. Pin and stitch in place.

STEP 12: Trim off excess bias flush and stitch end closed.

Good job, you have completed the glasses case!
